View The Future With

The Utmost Confidence

With 100,000 more sheep in Canada

to attempt a transatlantic flight

from Atlantic to Pacific, the

first time in history, the

British government, under

Mr. Chamberlain, has

agreed to finance the

venture, which is being

undertaken by a

private company, the

Imperial Airways, Ltd.,

which is a subsidiary

of the British

Empire Airways

Corporation, Ltd.,

which is a

private company

incorporated in

England, and

which is

controlled by

the British

government.

The flight

will be made

in a biplane

designed by

Mr. Barnes,

of the

Imperial

Airways, Ltd.,

which is a

private company

incorporated in

England, and

which is

controlled by

the British

government.
